

4/23/05

Dear Maria, Vitaly and Igor -

Since 2002 the Museums funding vehicle has been depleted of \$15,000 dollars.

I feel very guilty about this depletion since the government's inquiry into this situation and threats of jail time for fraud.

This fund was established legally to hold musical events, to honor a special individual for a meaningful major contribution to humanity. This has been the Museums yearly event. I intend to continue sponsoring scholarships for talented needy children. This is my obligation and legal Charter.

This said, I would like some timetable showing repayment amounts, please!

Regarding Laboratory rental I feel 500,00 per month including workshop availability etc. is quite fair - I have and had rental inquiries from other people.

I need survival help desperately - Alessi from Broadway Bank called me to set up a meeting with the four of us - something ~~is~~ amiss?
