

# **FINE ARTS RESEARCH & HOLOGRAPHIC CENTER**

## **INTENSIVE WEEKEND COURSE**

### **INTRODUCTORY HOLOGRAPHY**

**3-D IMAGING USING LASERS**

**OCTOBER 18 & 19**

This is a "crash course" offering students the fundamental procedures of holography. It is equivalent to Holography I class. Students will use laser technology to make the four basic types of holograms;

**Single Beam Transmission—Single Beam Reflection**

**Multiple Beam Transmission—Multiple Beam Reflection**
