Dear Audrey;

The Board of Trustees took up the question of whether or not to exhibit works other than those of a holographic nature; and, they decided that it would not be in the best interest of the museum to present works other than holograms. As they stated, "...it would make our identity too fuzzy." I am sure that you understand, and are sympathetic to the situation.

I truly wish for you all the luck and success which you deserve. And, thank you so much for the clipping and your thoughtfulness to send it.

Sincerely,

Loren Billings
