

Dr. Tung Hon Jeong Memorial  
Hologram Hallway Gallery  
at  
Lake Forest College

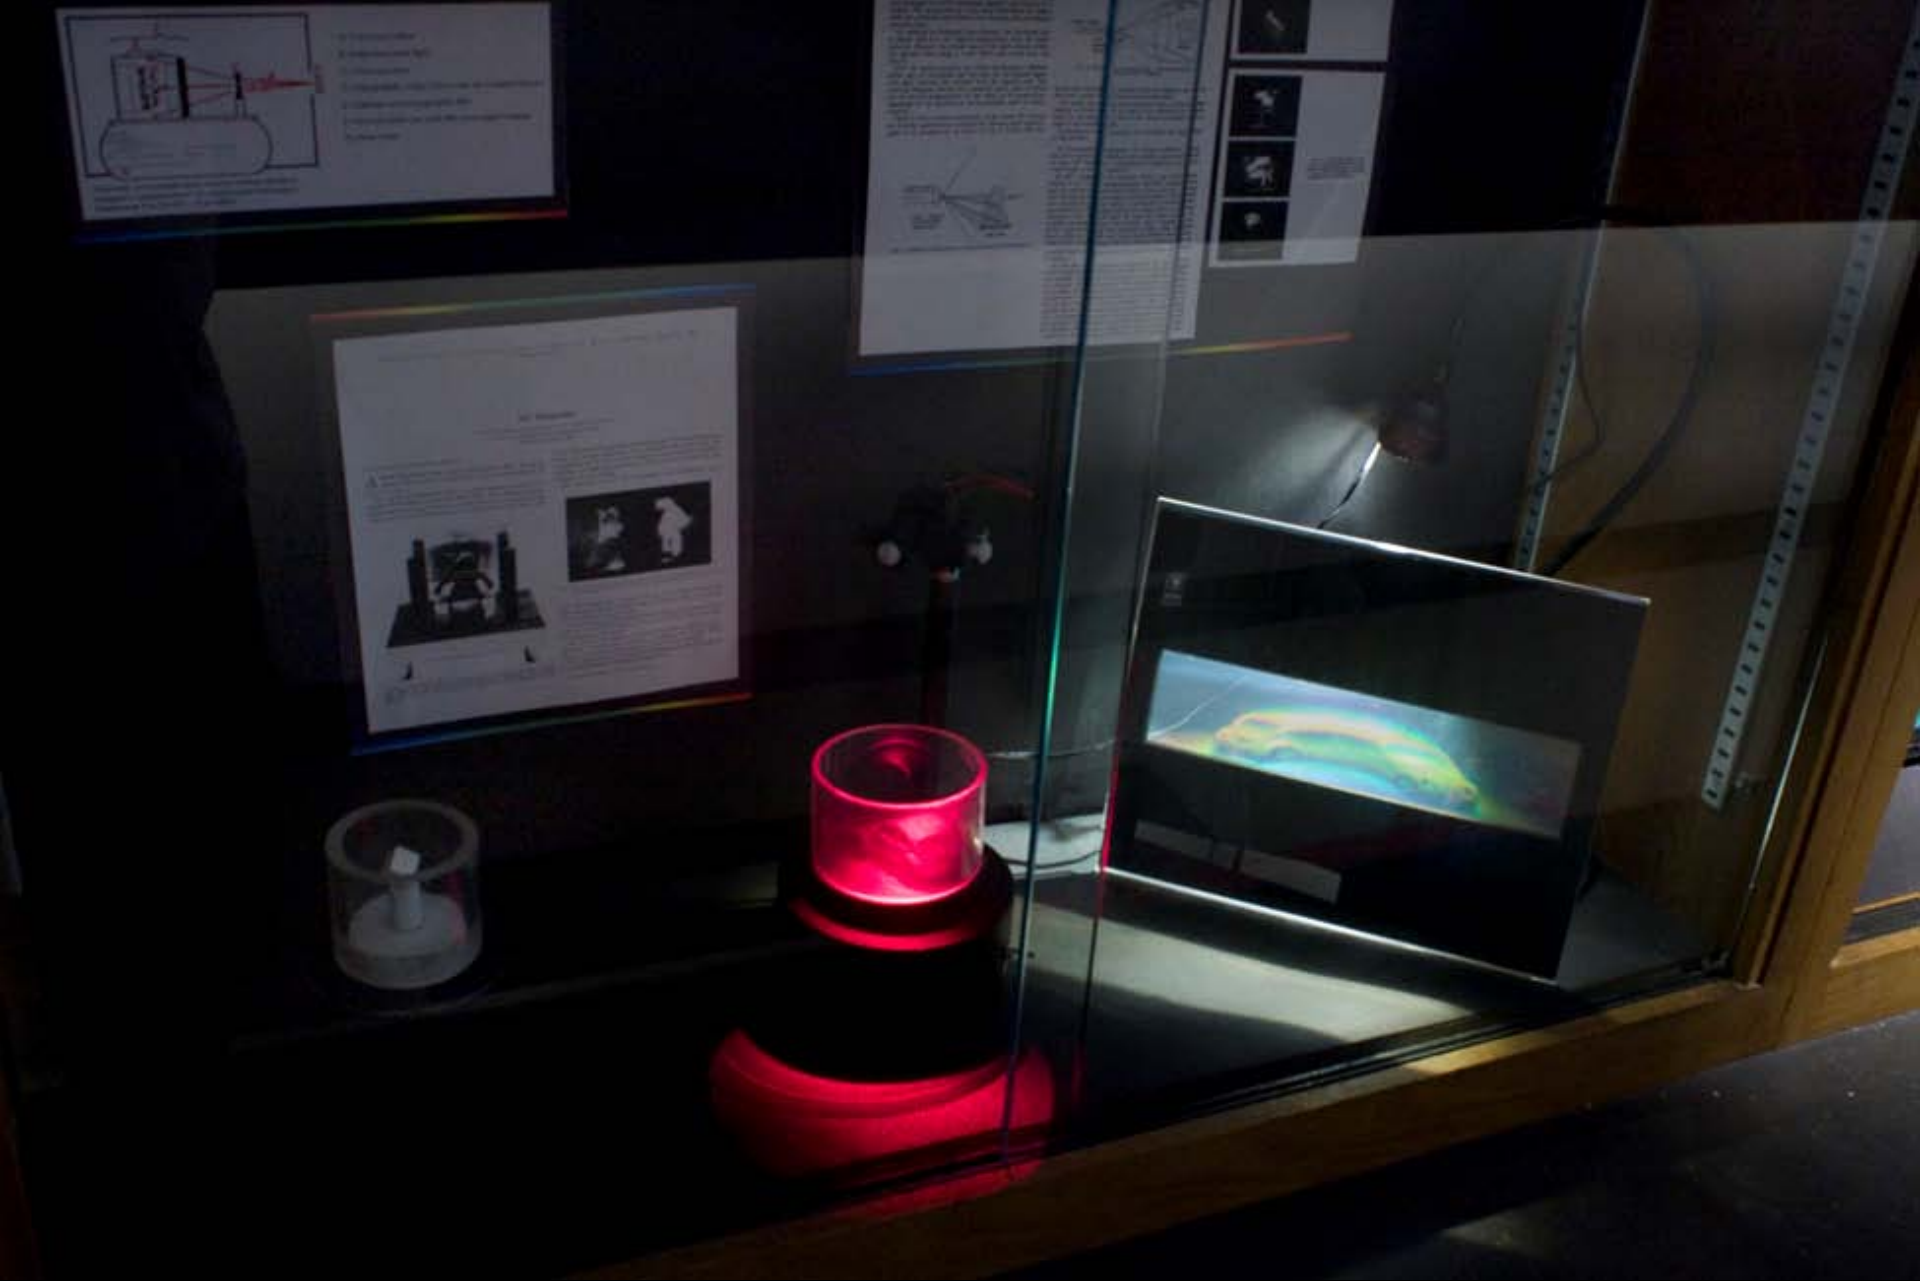

Almost Finished,  
Summer 2019

Looking North from the South Entrance, Reflection Hologram Wall

One of the Laser Transmission Hologram Cabinets, including some of the objects depicted in the holograms. Some of these holograms are over 50 years old!

TJ's big claim to fame is the Cylindrical Format Hologram, for "if you're going to go 3-D, why not go 360°?"

Holograms given to TJ by Soviet Holographers on top, dichromates from a regular Summer Workshop Lecturer, Rich Rallison, below.

Color Holograms recorded in the labs  
at Lake Forest College
