Fine Arts Research & Holographic Center

1134 W. WASHINGTON BOULEVARD / CHICAGO, ILLINOIS 60607
(312) 226-1007

August 3, 1981

Dr. Hans I. Bjelkhagen
S-11347 Hagagahan 54
Stockholm, Sweden

Dear Dr. Bjelkhagen:

On behalf of the board of Trustees, I would like to invite you to become a member of the Advisory Board of the Fine Arts Research & Holographic Center.

The Advisory Board is made up of those who have made outstanding contributions to holography and in the associated fields of optics and light, and who continue to be active in those fields and share with us the view that the field of holography is still one of unlimited potential.

As a member of the Advisory Board, you will join such distinguished colleagues as:

Dr. Max Epstein	Chairman of Science Dept. Northwestern University
Dr. Nick Phillips	Physic Department University of Technology Leicestershire, England
Dr. Emmett Leith and Dr. Juris Upatnieks	Environmental Research Institute of Michigan

Under separate cover, we are including the trustees and staff resumes.

Dr. Hans I. Bjelkhagen

August 3, 1981

We feel that your membership on the Advisory Board of the Fine Arts Research & Holographic Center will be one of mutual advantage. Your recognition as an expert in the field will be broadened; your name will be carried on all institutional literature. As a working holographer, your opportunities for commissions will be increased.

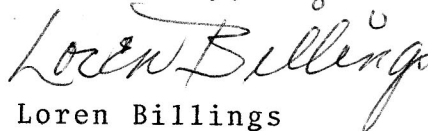

Your duties as a member of the Advisory Board will not be arduous. While the reputations and credentials of the board members are impressive and may be of some influence to funding organizations, you, as an Advisory Board Member will never be called upon to act as a fund raiser for the institution.

Your contribution will be entirely voluntary and technical. Perhaps at most it will consist of an occasional contribution to our quarterly newsletter, and then generally something for an audience of general interest, rather than a body of your peers.

We would appreciate a prompt reply in order that we may include your name as a consultant/school advisor, if your response be affirmative, in our new Fall catalogue.

We look forward to your joining our institution actively, and working together for the growth and development of holography.

Yours truly,

Loren Billings
Director
FINE ARTS RESEARCH &
HOLOGRAPHIC CENTER
