August 4, 2001

Dear Loren,

As per our conversation, a letter on Museum stationary, written by the Founder.....the weight of such a document.....cannot be put into words.

that can be address are:

mutual

Some thoughts on what can be addressed:

mutual cooperation

- ✓ the exchange of ideas between GnXpert and the Museum of Holography
- ✓ Sharing Knowledge and experience with "new" holographic technology
- ✓ Commercialization of holographic technology through merchandising
- ✓ Giving permission to use the Museum laboratories for the completion of the prototype *GnXpert*.
- ✓ Elaborating on your thoughts about the benefits of the cooperation between GnXpert and the Museum of Holography

Thank you from the bottom of our hearts

Sincerely

[Handwritten signatures]
Maria, Igor and Vitaliy
