Loren Billings  
MUSEUM OF HOLOGRAPHY  
1134 W. Washington Blvd.  
Chicago, ILLINOIS 60607

Dear Loren,

Thank you for your inquiry regarding my services in embossed rainbow holography.

I am enclosing some current samples of images to give you an idea of my style when set free to design. Also to let you consider these for sale through whatever type bookstore or retail outlet you've got going there.

My prices for custom photoresist masters have been increased slightly to reflect both current demand and increases in overhead due primarily to a new facility and laser system. Base price for most straightforward 1-color rainbows is \$4,000. Two-color rainbows are \$4,500. These prices are for 3-D holograms from models. I have always preferred this type of image. Because of that and possible legal ramifications, I do not do primarily so-called 2D/3D. I can project flat print graphics onto the plane if a client insists on his company name, copyright info, etc.

All work is sent to Diffraction Company and you deal directly with them, I do not take anything on the plastic. Mr Wynd could further attest to my general quality level and reliability on past custom jobs if you need more references.

Call if I can be of assistance.

Sincerely,

Steve Provence Holography
