

DENISYUK VISITS LAKE FOREST

Arriving on July 31, 1989, Yuri Denisyuk began his first trip to the United States. After a restful stay at "Glen Rowan", the guest house of Lake Forest College, he joined Dr. Jeong at his summer house on Fox Lake where he demonstrated his athletic prowess by water skiing. Denisyuk also brought along snorkel equipment, but he did not have the opportunity to use it.

The President of Lake Forest College honored Denisyuk at a reception that was well attended by officials of the College and invited guests.

Denisyuk gave a fascinating lecture attended by holographers in which he revealed that he came upon the idea of reflection holography reading science fiction. Denisyuk's work went unnoticed in the USSR until Leith and Upatnieks made holography headline news in the United States.
